

**SCREAMING
ZOMBIE**
**ENERGY
DRINK**
ScreamingZombieEnergy.com

Greetings Fellow Haunter,

Thank you for your interest in Screaming Zombie Energy Drink and our custom, private label haunted house energy drink program. As haunted attraction operators, we want our customers to experience a total Halloween environment. From the moment they arrive at the haunt, until they return to their car, we strive to immerse them in all things Halloween, including the concession stands. We have created Screaming Zombie Energy Drink for two simple reasons: because energy drinks are extremely popular and because your customers crave, and deserve, one thing- Halloween! Why offer your guests a common soft drink when what they really want is a Screaming Zombie!!

We have enlisted the incredible talents of Brainstorm Studios LLC to design the most electrifying artwork ever used for an energy drink container. This incredible artwork will definitely appeal to your Halloween customers. We have also negotiated with our suppliers to minimize production and shipping costs, allowing us to offer you a truly unique, great tasting, "Halloween themed" refreshment at nearly the same price point as other generic options!

One of the most exciting parts of our company is our new private label division. We truly love Halloween and the haunt industry, and we hope each and every haunted attraction is successful. And as you know, a major part of producing a successful event is your marketing plan. Why not generate profits and provide your customers the most unique energy drink available, while marketing your event! We will help you create an energy drink featuring your haunted attractions' name, logo, character and artwork. We can even show you how to use the drinks container as a discount coupon!

Give me a call to discuss how we can keep both your customers and your marketing "ENERGIZED"!

Happy Haunting!
